

# Themed equipment

## J2605: Technical specification

1- **The 68mm square posts of the drawbridge** are made of laminated timber, which have not been treated with chrome or arsenic. Splinter-free, the laminate provides great strength and dimensional stability. The posts are protected from wear and tear caused by fungi, insects and termites.

2- **The painted panels** are 22mm thick and made up of layers of very high quality birch which are waterproofed with a coat of phenolic resin. The edges are then sealed and 3 coats of polyurethane paint are automatically applied to each face and edge.

3- **The platforms** are 22mm thick panels made up of alternating layers of birch and pine. The surface is coated with a film of anti-slip phenolic resin.

4- **The tubes** are made of stainless steel, diameter 40mm, guaranteeing lasting durability and reliability of the equipment.

5- **The stainless steel fixings** are protected by polyamide anti-vandal caps.
