

Vivarea

Technical Specification

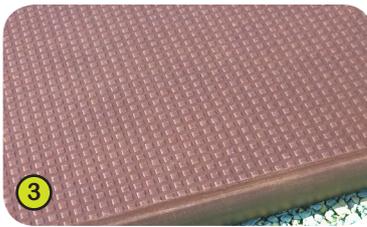

J33111

1- **The lacquered panels** are made from very high quality plywood 21mm thick, made of alternate layers of thin birch, which offers longevity and an exceptional mechanical strength. The colours are applied by electrostatic spraying of two-component polyurethane lacquer that is free of heavy metals, to ensure high levels of resistance to potentially aggressive chemicals such as anti-graffiti cleaning products.

2- **The vertical 95mm square post** are made of laminated timber, which have not been treated with chrome or arsenic. Splinter-free, the laminate provides great strength and dimensional stability. The posts are protected from wear and tear caused by fungi, insects and termites.

3- **The platforms** are made from a textured and non-slip compact material (HPL), 12.5mm thick.

4- **The tubes** are made of stainless steel, diameter 40mm, guaranteeing lasting durability and reliability of the equipment.

5- **The sliding surfaces** are made of stainless steel 2mm thick, shaped, bent and rolled in one piece.

6- **The fixings** are made of stainless or plated steel and protected by anti-vandal polyamide caps.

7- **The balconies** are made of 3mm perforated aluminium sheet, coated with polyester epoxy lacquer.
