

Gardening workshop

Technical specification

J5300

1- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it offers excellent resistance to weathering and vandalism.

2- **The posts** are made of laminated pine, 68x68mm, treated without chromium or arsenic. The laminated wood is splinter free, and it provides considerable strength and dimensional stability. The posts are protected from fungus, insects and termites.

3- **The basins** are made of galvanised steel.

4- **The stainless steel fixings** are protected by polyamide anti-vandalism caps.
